### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"><li>1. Although -Tarpana- treatment is known as organic, it would be better if the question of what is the active molecule is answered.</li><li>2. Has the negative effect of the agents used in the treatment on the eyes been tested before or how has it been tested?</li><li>3. In the conclusion part, it was mentioned that tarpana treatment is the best modality in myopia and other eye diseases, but since its certainty has not been proven, a more debatable sentence can be made.</li><li>4. It would be better to mention studies made after 2010 in the references.</li></ol>	
<b>Optional/General</b> comments	In general, it was an interesting study that could be developed, which should be supported by further studies.	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
