PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	<p>Dear Author,</p> <p>Thank you very much, this is an interesting approach to highlight the prevalence of maternal and child undernutrition. Child and maternal undernutrition is a subject of great concern globally as well as in India. I have gone through your manuscript and observed the following points:</p> <ol style="list-style-type: none">1. At Page-1, in the abstract line-1, 4 & 9 some spelling mistakes/spacing errors have been observed that need to be corrected.2. In the main body these mistakes have also been observed, which need corrections.3. Although the nature of the manuscript is a 'short communication' but it would be better, if a couple of latest studies are to be consulted/cited to strengthen the research problem/arguments.4. The terms like – stunting and wasting must be defined/explained.5. Some arguments must be highlighted to know that how COVID-19 is increasing the prevalence of undernourishment among children and mothers <p>I think these points must be taken into consideration before the manuscript is accepted for publication.</p>	
<u>Optional/General</u> comments
