PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	As the author claims this as review article, paper should be completely rewritten with necessary subdivisions and other comparison with the many data. As review article concern more literature survey should be carried out with more supporting proofs. Citation of reference is not done in the text and as per the journals "manuscript guidelines" reference need to be rearranged. Figure 1 and 2 are not cited in the text. Author failed to justify the importance how cadmium (Cd) can endanger the human life in the introduction part. Author have to frame a structure and provide more detailed information.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
