PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Raw material of leaf bought from herbal health centre . How do you be sure the quality and ages of plant ? I would suggest in the future study authors collect materials themselves in wild environment to be sure the materials are fresh and well preserved. 5 gram of powder producing 80 gram leaf crude extract? How many grams of raw leaf powder produce 80 gram?	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	This manuscript is part of series of research on <i>Pterocarpus santalinus</i> , which is unique in India and no other researchers worldwide have done any previously. Though study methods and equipment are common and practical, the results of findings will provide some value for further research. If authors could have done comparison with one of exiting well known Indian herbs, this paper work could be more informative academically.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
