PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The author present an interesting review article that is worth publishing. However, some additional modifications are necessary before it can be accepted for publication. The main concerned is the data analysis.</p> <p><u>Introduction:</u> Please write the objectives of this study.</p> <p><u>Method:</u> Did the authors request the permission from the Ethics Committee to conduct human trials? Please specify.</p> <p><u>Results:</u> Please recheck the type of statistical analysis. I am not clear with the data in Table 5. The displayed P-value represent which data group. I suggest the author use ANOVA instead of the Paired t-test.</p> <p><u>Discussion:</u> Please explain more about discussion of the results, especially the previous research related to the obtained results.</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

Review Form 1.6
