

## Review Form 1.6

|                          |  |
|--------------------------|--|
| Journal Name:            | <a href="#">Journal of Pharmaceutical Research International</a>   |
| Manuscript Number:       | Ms_JPRI_78709  |
| Title of the Manuscript: | Outpatient stage of cardiorehabilitation in patients with acute coronary syndrome: prevalence of insulin-dependent diabetes and its risk factors |
| Type of the Article      |  |

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1:** Review Comments

|  | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| <b><u>Compulsory</u></b> REVISION comments | <b>Major revision is needed</b><br>Change the title to a one which highlights the final outcome of this study.<br><br>Abstract should include a small introduction, small summary of the methods and conclusions of the study.<br><br>The introduction should be revised highlighting the background and the objective of this study.<br><br><b>Analysis is poor.</b> In the section of patient characteristics categorize it as demography, anthropometry, comorbidities... like that.<br><br><b>Please define everything you mention in the results.</b> What is high normal glucose?<br><br>Results are not organized as come to a conclusion.<br><br><b>Please add a scientific discussion.</b> The discussion is not adequate. |   |
| <b><u>Minor</u></b> REVISION comments      | Please provide references for the facts mentioned in the introduction and the discussion. For some facts there are no references.<br><br>** What is normal body weight? It is meaningless mentioning the percentage of the normal body weight.  |   |
| <b><u>Optional/General</u></b> comments    | Reconsider the keywords   |   |
