Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalipri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1. The methodology is not clear. It states that the sampling was by simple random technique, and further that the tool was forwarded in Whatsapp group. Need more clarity on how the sampling frame was made, the overall population, setting, etc. 2. Referencing is improper. 3. The description of color code in text is not required, so also the X and Y axis. The figures should be self explanatory. 4. Some studies are old, eg no.6, 8, 29, 31. There huge research data on current pandemic, References such as 10-16, 18-28 do not seem to relate to the current study.	
<u>Minor</u> REVISION comments	5. Many grammatical errors, spacing, letter casing, etc. 6. The keyword: innovative techniques can be omitted as it does not appear as a key word in the overall article. Also covid-19 and SARS-COV is the same. 7. Repetition of content. 8. Some sentences begin with figures (percentages)	
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
