PART 1: Review Comments

| | Reviewer’s comment | Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <div>1. No timeline is given. The authors studied till which date. The number of positive pregnant women seems too less as now lot of data has been published</div> <div>2. The authors have not mentioned the regions where maximum cases were reported or from where maximum studies were reported</div> <div>3. No proper review is mentioned that for optimum outcome what most studies say:<div><div>a. When a pregnant woman needs admission?</div><div>b. What is serious disease?</div><div>c. When should the newborn be tested after delivery?</div></div></div> <div>4. What finally was the outcome in studies or what were common complications: Preterm labour, Maternal mortality, Perinatal mortality, NICU admission.</div> <div>5. Only one complication is mentioned – increased CS rate which has now decreased – why? No analysis is done, as to whether more studies have come up or general awareness regarding disease has increased or any guidelines have come up</div> | |
| Minor REVISION comments | | |
| Optional/General comments | <div>This is not a proper review. Just an article regarding pandemic</div> | |
