Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> PAGE 1,LINE 1.The sentence should be “ The novel corona virus disease has a major effect on pregnnancy and neonatal outcomes . PAGE 1,LINE 11.Studies done so far have confirmed that Isolation and uncertainty imposed by pandemic lead to an increase in depression and anxiety coupled with emotional eating which intessified the gestational weight gain. PAGE 2,LINE 13:This paper overviews the impact of the Covid 19 viral infection on pregnant women and their newborn from the literature available PAGE2,LINE 18:To analyse impact of COVID on pregnant women and neonates. PAGE3,LINE 17:Please check if it is JHU PAGE3,LINE 26:COVID 19 in pregnancy aggravates the immunosuppressiion in pregnancy and puts the woman at risk of infections. PAGE 4,line 5Acute respiratory distress syndrome is the most common complication encountered as the corona virus primarility infects the lungs. Page 4 ,line 6/7:Evidence suuggests that stillbirth is morecommonly seen when infection occurs in the first trimester rather than second trimester.. Page 4,line 8/9: Language poor can delete. Page 4,line 8/9:Vague and incorrect grammar Page 4,line 12 :Women continuing with pregnancy are prone to develop Fetal growth restriction due to impaired uteroplacental vascular perfusion,clotting of blood of intervillous vessels..... Page 4,line 15:within Page4 ,line 22: Meta analysis carried out stated Page5 ,line 2: No direct increase in stillbirthdue to corona infection but maybe due to pandemic related disruptions Page5 ,line 6:number Page5 ,line 22:monoclonal antibodies Page 5,line 30: SMFM- FULLFORM PAGE 6 ,LINE 3 10 days after the occurrence..... PAGE 6 ,LINE 4:should consult her ANC care provider preferably online.Self- isolation of 14 days is required if serious symptoms do not develop. PAGE 6 ,LINE 6:Monoclonal antibodies are not first line management should be written last. PAGE 6 ,LINE 10:This should be after the sentence telling about appearance of symptoms. Page 7 ,line 8: epidural reduce the spread of virus ? how? Any references 	

Review Form 1.6

	<p>??</p> <p>23. Page 7,line 13: fetal heart beat monitoring is requiredPlease refer to RCOG GUIDELINE WHICH STATES CLEARLY INCREASED RISK OF FETAL DISTRESS IN SYMPTOMATIC COVID INFECTIONS AND NO RISK OF FETAL DISTRESS IN ASYMPTOMATIC CASES</p> <p>24. Page 7 ,line 18: loss of senses????regional anaesthesia is preferred over general anaesthesia.</p> <p>25. Page 7,line 19 :control of airways – I don't understand the line</p> <p>26. Page 7 line 20 : breathing during GA ???- I AGAIN DON'T UNDERSTAND.</p> <p>27. PAGE 7 LINE 23:MORE NUMBER INSTEAD OF NO.</p> <p>28. PAGE 7LINE 30: THE NEONATE FORMS A STRONG BOND IF KEPT WITH MOTHER NOT MET WITH MOTHER.</p> <p>29. PAGE 8;LINE 11: pregnancy and labour are difficult phase of a woman's life.</p> <p>30. Kindly check references – all references to be in vancouver style</p>	
Minor REVISION comments		
Optional/General comments	<p>It would be good if the discussion is rewritten in a more methodical manner and language corrections need to be made .</p> <p>The structure of the discussion.</p> <ul style="list-style-type: none">➤ Incidence of infection➤ Symptoms of infection➤ Risk factors for infection.➤ Management <ol style="list-style-type: none">1. Asymptomatic cases2. Mild infection3. Moderate infection4. Severe infection <p>Would be good if the word ‘ DREADFUL ’ is dropped ...leaving the title – impact of covid on pregnancy.</p>
