

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_79816
Title of the Manuscript:	SHEDs into Islet like cell aggregates: A new horizon for treating insulin dependent diabetes mellitus
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This study demonstrates that stem cells from human exfoliated deciduous teeth are mesenchymal stem cells and the potential application for stem-cell based therapy for insulin-dependent diabetes mellitus. Figure 2 needs to be revised to have the name of the cells. The legend of Figure 3 needs to be revised to indicate the difference between mesenchymal stem cells growth medium and islet induction medium in detail. The scale bars may be added in Figures.	
<u>Minor</u> REVISION comments	1. Please indicate abbreviations at the first time shown. 2. Proofread your manuscript carefully.	
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
