### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The paper is interesting as it attempts to present some argumentation through pre-protocol publication. However, I have noted the following observations.</p> <ol style="list-style-type: none"><li>1. The overall write-up needs to be improved. It is rather weak in its current form. The authors may get the paper proof-read by an expert. The introduction section needs more references to strengthen the arguments.</li><li>2. There are some mistakes in typing. For example, in the objectives section, 'of' has been typed twice. Such mistakes are needed to be corrected throughout the paper.</li><li>3. The conclusion section is rather inadequate.</li></ol>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
