	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<p><u>(If yes, Kindly please write down the ethical issues here in details)</u></p> <p>The authors should declare that they have no other funding, financial relationships, or conflicts of interest to disclose. All authors are asked to disclose potential conflicts of interest that could impact the credibility of work. Current recommendations ask authors to disclose four types of information: 1. Association with commercial entities that supported work in the submitted manuscript (at any time during the lifespan of the work); 2. Associations with commercial entities that could be viewed as having an interest in the general area of the submitted manuscript (within 36 months before submission); 3. Associations similar to #1 or #2 above involving a spouse or child under age 18 years; 4) Nonfinancial association (e.g., personal, professional, political, religious) that a reasonable reader would want to know about in relation to the submitted work. If no such declaration has been made by the authors, they can write this sentence: "Authors have declared that no competing interests exist." Please see the author's guideline for Journal of Advances in Medicine and Medical Research. (Link: https://www.journaljpri.com/index.php/JPRI/about/submissions)</p>
