PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	This is a comprehensive prospective study of 29 patients with thoraco-lumbar fractures and short-segment fixation. The study planning and performing, the statistical analysis, the tables and figures, as well as the list of references are accurate. The assessment tools are not totally clear.	
<u>Minor</u> REVISION comments	In the orthography and the punctuation, there are some small mistakes. Therefore the manuscript must be overworked.	
<u>Optional/General</u> comments	The study is comprehensive and important, however the orthography and punctuation must be overlooked.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
