	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Even though it is not a structured summary, it is necessary to follow a sequence: Introduction, Aims, Methods, Results and Conclusions. It was not necessary to include the descriptors and databases consulted. Spacing between words and quotes needs to be corrected. References have many errors. I suggest making the corrections because the article is interesting.
