PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**1. The peculiarities of the case was not discussed.** **2. what are the challenges in the management of this patient.** **3. what are the characteristics of Chromophobe renal cell carcinoma that warrants this case presentation. (Note; this is not an uncommon tumour as the authors claimed, however if it is uncommon in their environment, it should be stated clearly with references).** **4. Images should be properly labelled and described. Use pointers for areas of interest in images.** **5. The discussion section was poor. Peculiarities and challenges in the index patient were not discussed. There was no robust discussion on the treatment offered to the patient. There was no literature to compare and contrast the foregoing issues.** **6. The conclusion was poorly written.**	
Minor REVISION comments		
Optional/General comments	The Authors should acquaint themselves with the demands of case report. This case report was poorly written. It does not bridge any knowledge gap.
