<u>Compulsory</u> REVISION comments	<p>Well its a good study to look at the issues for that institute- although many studies were conducted in the past to look at it.</p> <p>There are many flaws in the methodology</p> <ol style="list-style-type: none">1. The duration of study was not mentioned Also estimated numbers of patients to be included2. Why randomized sample will be collected and not all- then the results will be biased3. Why Gynae and ENT surgery was excluded ? Any reasons, It will raise concerns and may limit validity of outcomes4. The authors need to provide or show the list of data or questions that they are planning to ask- also these questions needs to be validated.5. The authors need to be more specific how data will be collected and by whom. How the process will be coordinated as there are many teams and units are involved6. It will be hard to know the exact cause of cancelation- until you get the information from the managing unit	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	<p>Although it might be good study for that institute but will not be applicable to hospital in other countries- as situation and economic conditions may vary country to country.</p>
