PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Conclusion is clear. 1.For diagnosis, with the findings of this study, while diagnosing these symptoms, it is crucial to review the history, particularly any first indications of aspiration, coughing, wheezing, or respiratory problems. 2. For preventing foreign-body aspiration and paying attention to the patient's history are the greatest ways to avoid serious problems caused by it.	
<u>Minor</u> REVISION comments	In Abstract= The conclusion should be rewritten to make complete sense	
<u>Optional/General</u> comments	Accept	

PART 2:

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
