General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>This article is riddled with English language problems and needs a professional to rewrite the whole article. As it stands, it is not in a publishable form.</p> <p>You cannot diagnose a contusion on physical and history alone. A contusion is an imaging term and without MRI or CT the interpretation is extremely limited. This imaging must be obtained and included if any consideration for publication.</p> <p>Some key references were left out to describe progression of contusions over time and must be included to expand the discussion PMID: 26140712, PMID: 27857999, PMID: 30409147</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
