General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<ul style="list-style-type: none">- It is imperative to check the English grammar--References from 22-40 should be revised since, some of them are not pertinent to the manuscript. References need to be cited appropriately in the text.-The sample size calculation is not explained.-There is not statistical for the internal and external validation-Present inclusion and exclusion criteria in a more clear and concise manner is necessary-Which are the parameters to classified moderate-several affected?-Predilection is not a proper word to use in this case.- The manuscript presents interesting results. The writing style is very truncated, I suggest re-writing for fluency-Graphs are not adequate for Chi-square test, tables would be more appropriated.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	I recommend a review version to be submitted	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
