

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_82304
Title of the Manuscript:	Use of one-factor design of experiments (DOE) for Regression Modelling and Validation: A Robust Methodology
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The author discusses about use of one factor design of experiments for regression modelling. My concerns are listed below.</p> <ul style="list-style-type: none">• Page 2. Data presented in table 3.1..... Table 3.1 is missing.• The author should remove the R codes from the paper and list them in attachment.• The author should write the manuscript including introduction, method, result, discussion, and Conclusion. There is no discussion in this paper, the author should discuss where and how to use this result and compare the result of this paper to the other studies.• The equations should be numbered consecutively.• Page 4. Check the equations and write them as cases.• Table 4. Variable x1 is not significant. This means coefficient is zero. Why is it left in the model equation Page 8.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
