### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

### **PART 1:** Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<b>1.Patient had difficulty in breathing while lying supine, please mention the factors for that.</b> <b>2. If indirect laryngoscopy was done, its finding would have been more helpful to decide about the difficulty in intubation.</b> <b>3.It was mentioned that mallampatti could not be assessed because of tumor,but mentioning the measure of mouth opening would have been useful.</b> <b>4. It would be more helpful to understand the difficulty in intubation if you have pictures of open mouth to show the intra- oral space occupied by the tumor.</b> <b>5. Use of blocks and difficulties during intubation should have come in material methods while describing the case.</b> <b>6.Discussion should come up with short review of literature.</b>	
<b><u>Minor</u></b> REVISION comments	Few spelling corrections as mentioned in the comment with manuscript Labeling of pictures should come with pictures.	
<b><u>Optional/General</u></b> comments	Good case which can have more impact with more of radiologic and intra oral pictures if possible.
