PART 1: Review Comments

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1) I do not understand the course of hypercalcemia in this case. Please mention it. 2) I do not understand the novelty of this case. Why did you report this case? For instance, is sarcoidosis rear for BIONJ? 3) I could not find the kidney function in the case. 4) In Dicussion, I felt that the part of “BIONJ revised staging system” is unnatural in the context. In your case, which stage? I could not find it.	
<u>Minor</u> REVISION comments	In the sentence, capital forms such as Bisphophonates, Zoledronate, Risedronate, are incorrect. Introduction page 1, line9-10; should be corrected. “Zoledronate” is duplicate, so please delete each of ones. BIONJ is OK? BRONJ (Bisphosphonate related) is normal, I think. Please confirm.	
<u>Optional/General</u> comments		

PART 2:

	Reviewer’s comment	Author’s comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
