PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	<p>This manuscript describes comparison of three kinds of paracetamol tablets which are effervescent for paediatrics. This manuscript is well-written, but to strengthen its content, I would like to propose additional description on merit of making effervescent paracetamol tablets.</p> <p>Another point is: Formulation F3 seems the best one, but I and readers would feel like knowing what's if Filler (%), Sweetener (%), Citric acid (%), and Sodium bicarbonate (%) are, 5, 5, 30, and 30, respectively.</p>	
<u>Optional/General</u> comments
