PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Below in minor comments	
Minor REVISION comments	<p>Overall, this is an interesting, well organized, and valuable paper for the treatment of mild to severe atopic dermatitis as well as to prevent organ rejection after organ transplantation with low solubility drugs. However, some minor points need to be addressed:</p> <ul style="list-style-type: none">• Check figure 1 ligand and improve it at page No 9, author mentioned it both image and figure, I think it should be figure 1 only.• Figure 2 ligand should be improved.• There is no error bar in Figure 8.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
