PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1- 2- Poor data presentation, and the data are not well-controlled. 3- The most critical data that reflect the study title were not available in the results section! (The author/s indicated that he/they mentioned the frequency of anomalies in table2, but no actual detailed data regarding the similar issue is available in table2)! 4- The author/s did not provide the methods that have been used to diagnose these anomalies. 5- The discussion has been based on unavailable data! 6- The conclusion is not supported by the data discussed inside the manuscript. 7- See a detailed comment through the attached manuscript.	
<u>Minor</u> REVISION comments	Reformatting, rephrasing and grammar editing were needed.	
<u>Optional/General</u> comments	The reliability of this study is questionable?	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
