PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The manuscript entitled "<i>Inflammatory Markers and the Metabolic Syndrome in Pakistan.</i>" is about to provide the relationship between inflammatory markers and the metabolic syndrome In Pakistani population.</p> <p>Authors need to use consistently the word style, wording, and so on, so authors need to check that in manuscript.</p> <p>At line4, author need to change "In" to "in".</p> <p>Authors should use written style rather than colloquial style English.</p> <p>Actually, it is not clear why authors use the "metabolic gamble factors", and it is not clearly understood.</p> <p>It is not clear what does "In the second gathering" mean? authors gather the information several times?</p> <p>I could not understood about "C-receptive protein". I suggested that authors need to explain about that.</p> <p>What is the "covary"</p> <p>Miss spell for "grouop"</p> <p>At the table 1 title, "CPR" is misspell or not.</p> <p>At Table1, what is the first and second group?</p> <p>Authors need reference for "Compared to normal cell line, EIF3K expressed lower in inflammatory cell line. Furthermore, overexpressed IEF3K could up-regulate expression of EIF3K in inflammatory cell line and suppressed cell viabilities." and "Proinflammatory action is more huge assuming metabolic condition is portrayed by more components."</p> <p>At Figure 1, what is the normal cell line and inflammatory cells?</p> <p>It is not clear how authors conclude that the fatness is important for the metabolic condition and also fiery status?</p>	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
