PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The article is very well written and refers an interesting issue for medical and pharmaceutical practice. Essentially, I have no significant remarks regarding the manuscript. Considering its merits, I highly recommend publishing the paper.	
<u>Minor</u> REVISION comments	<ol style="list-style-type: none">1. Citing of the sources within the text needs a major revision – some sources are not placed properly (ex., N 6,15,19 & 21) and others are not cited at all (ex., 13,14,16, 17,18,20,25,26). Citing in the Reference list should be revised also according to the standards of the journal.2. In practice, the paper is missing a discussion section. The authors should present their results first (in the results section) and to discuss them (in the discussion section). If any related previous investigations exist, what were their results compared to the current ones, are there any limitations, etc...	
<u>Optional/General</u> comments	Paper quality analysis: Conceptual framework- Excellent Significance of review- Very good Finding and methodology- Very good Result & discussion - Good	

PART 2:
