PART 1: Review Comments

	Reviewer’s comment	Author’s comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	The article has scientific relevance and has results that can contribute to science. Improvement recommendations involve: 1) some paragraphs are too long and can be divided; 2) Make it clearer in the method if the work went through an ethics committee in research with human beings. There is mention of an institutional approval to carry out the study, however, it is not clear whether it is an ethics committee. If not, inform the justification for not performing this procedure.	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments		

PART 2:

	Reviewer’s comment	Author’s comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u> ethics is not adequate
