**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p>As two types of mango leaves were used in addition to several methods of extraction. So, a chemical analysis should be done for the extracts used to identify the different active substances and their quantities in young and mature leaves and the extent to which these active substances are affected by the extraction method.</p> <p>The discussion part, the effect of the different active substances must be explained in more depth. Also, the discussion should be fed with up-to-date references.</p> <p>There are many spelling and punctuation errors to be corrected.</p> <p>The program used for statistical analysis to be mentioned.</p> <p>The way table headings are written should be standardized</p> <p>There many references to be checked</p>	
<b><u>Minor</u></b> REVISION comments	There are some recommendations in the part of reviewer comments to be done	
<b><u>Optional/General</u></b> comments	There is a paragraph to be reformulated	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
