PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1 You stated that the scleral treatment should not produce serious adverse events or complication..However, there is no number of adverse event in your study such as discomfort , pain, redness etc .I think it would be more interesting if you can provide the pro and the cons of this procedure . 2 The inclusion , exclusion criteria that were suitable for providing correction was not revealed in your methodology .Can you spell out ? 3 There is some missing part of ethical part in yours Please provide more in detail.	
Minor REVISION comments	There was some redundant of word for example "the" in abstract .	
Optional/General comments	None	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
