

Review Form 1.6

Journal Name:	Ophthalmology Research: An International Journal
Manuscript Number:	Ms_OR_88320
Title of the Manuscript:	Efficacy Analysis for presbyopia correction using non-invasive scleral softening by infrared diode lasers
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalor.com/index.php/OR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors are proposing choosing, a dual function treatment using scleral softening or presbyopia and using cornea stroma shrinkage for hyperopia. It would be great contribution if the method is tried in their institute and results shared for the others to follow. Only mathematical calculation serves theoretical interest but not practical application. Therefore, double blind trial and results sharing is essential	
Minor REVISION comments	None	
Optional/General comments	Guidelines for the operationalization of the proposal based on trail be included	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
