

Review Form 1.6

Journal Name:	Ophthalmology Research: An International Journal
Manuscript Number:	Ms_OR_89959
Title of the Manuscript:	Study of clinical and etiological pattern of anterior uveitis in western odisha
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalor.com/index.php/OR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The reference sources are very old. The most recent is from 2016. They must be updated. Always try to compare studies with others from recent years	
Minor REVISION comments	There is no sequence of references, from 13 it goes to 17. The bibliographic citation 14 does not appear in the text.. I think that you should have been more careful and should have consulted other specialties such as Internal Medicine, Rheumatology, Immunology, as well as the help of laboratory exams and Imaging to refine diagnostics,	
Optional/General comments	I believe that the study should be based on anterior uveitis due to some disease, therefore the traumatic part would not fit in this study.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
