PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Nil	
Minor REVISION comments	Nil	
Optional/General comments	The manuscript is well written and I appreciate the study More statistical analysis would help in better conclusions What is the possibility of other fungal infections other than candidiasis? How did you rule out Viral infections like HPV? However samples were collected, a pap smear test would help in checking HPV infection The ethnicity of the Patients must be examined so that will be useful for epidemiological studies.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
