**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	1. The recommendation referring to gold and mutual funds should be removed because they are not derived from the results of this paper. 2. The formulas in Section 2.4 do not look right. Please check and amend. 3. The author(s) discussed various models for expected return and the author(s) then used the mean. The author(s) should explain why it is used rather than other models. 4. The formulas in Section 3, especially the one regarding returns, do not look right either. Please check and amend. 5. In Table 1, the middle column has only "0". What is the meaning of that "Covid-19 pandemic" column? 6. In Table 2 and 3, many "." s have become ",". Please check and amend. 7. The author(s) showed that the data are normally distributed but used a Wilcoxon test. Please explain.	
<b><u>Minor</u></b> REVISION comments	1. There are still some minor typos. For example, "liquid liquidity level" in the abstract, and "company's financial statements (performance) company)" in Section 2.1. Please have the manuscript proofread.	
<b><u>Optional/General</u></b> comments	1. The title is a bit too long. The author(s) may consider shortening it possibly by revising the "Market Reaction of Abnormal Stock Returns" part. Having either "Market Reaction" or Abnormal Returns" should be enough.	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
