PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Consider grammar check. There is redundancy of words in some statements. There are also repetitions of thoughts in some paragraphs. Identify specific sampling method used. You only indicated population sampling which is a too general description. What is "solving" formula? I assume, you are talking about "Slovin's Formula". Please verify because it is usually mistaken with "Yamane's Formula". Provide practical implications and recommendations based on the results of your study.	
<u>Minor</u> REVISION comments	Identify the specific type of quantitative method that was employed in the research. Quantitative research is a very broad category.	
<u>Optional/General</u> comments	-	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
