General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty'**, provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(https://www.journalsajsse.com/index.php/SAJSSE/editorial-policy)

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The table in the introduction section should be removed. The current literature review is poor. Most of the figures are not the authors' own diagrams. There are additional captions in the figures' captions refers to the reference of the diagram, should be removed and transferred to the main text. The Conclusion section is flawed. Overall, the paper is written like a presentation file or a report. It should be revised. There are many long and complicated sentences. Please, check the similarity using professional software.**	
Minor REVISION comments		
Optional/General comments	The manuscript needs major revision	

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)* I am not sure. The journal should apply a plagiarism check software.
